- from refusing to rent to an individual because of an arrest record,
  - from having a policy of not renting to anyone who has been convicted of a crime, and
  - from refusing to rent to an individual based on a conviction that is more than three years old

There also will be a focus on creating educational and economic opportunities in areas with high crime and incarceration rates.

Highlights from the 2022 Spring session of the Illinois General Assembly –

- Overall, the battles in the 2022 session, as in the past, focused on defending against attacks on prior reforms and defeating punitive bills, proposing sentencing enhancement and additional restrictions on the activities of those who have been convicted and served their time, which trend to figure as “accomplishments” in candidate mailings but cause great harm and do little or nothing to contribute to public safety.
- Defending Fundamental Reforms – There was a successful effort to head off amendments to the justice reforms enacted a year ago (in the “SAFE-T Act”, which included the Pretrial Fairness Act), but the last-minute approval by the House (but not the Senate) of changes to the Act underlines the fact that major efforts will continue to be needed from now on to protect those reforms at any time that the legislature is in session.
- New Felonies and Penalty Enhancements – With the help of our witness slips, the advocacy community defeated bills that would have created a new felony for tampering with an electronic monitoring device and penalty enhancements that to single out attacks on employees of the Department of Children and Family Services, which are already subject to severe penalties.
- Confidentiality of Juvenile Records – The bill that would have compromised the confidentiality of juvenile records also failed to pass.
- Retail Theft – A big accomplishment of the advocacy community and the victims’ rights community, which we supported with our witness slips, was to water down the much-hyped retail theft legislation

proposed by the Retail Merchants Association with the support of Attorney General Kwame Raoul, which would have increased penalties for retail theft across the board, in spite of the fact that retail theft in Chicago is at its lowest level in decades and that the threshold for treating retail theft as a felony in Illinois is already among the lowest in the country. While disappointing, the penalty enhancements in the bill that passed are limited to narrower situations such as the actions of certain organized theft rings and theft that causes property damage.

- Lifetime Restrictions on Those Who Have Served Their Sentences. Among the disappointing outcomes in this session was the failure to pass the bill that we supported that would have repealed the law prohibiting people convicted of felonies from acting as an executor of an estate. Our witness slips contributed, however, to the defeat on a 13-13 tie vote in committee of HB2538, which would have restricted those convicted of a felony from being licensed the general contractor, adding to the hundreds of Illinois laws that already restrict the ability of people who have served their time to earn a living. Unfortunately, as Ben reports, we were unable to defeat the bill expanding the categories of fairs and other such events in which of sex offenders (broadly defined) are prohibited from working for the rest of their lives.
- Carjacking – Like so many other areas, this is one in which little can be accomplished by additional legislation, but in which legislators feel political pressure to do something. Of the proposals that were floated, the bills that passed create a new felony for possessing a key fob to unlock a car door with the intent to commit a theft or a felony and provisions to assist victims of car theft to pay the resulting red light and speed camera tickets and towing and storage fees.

### 2021 Enactment of the SAFT-T Act, Including the Pretrial Fairness Act and the Elimination of Cash Bail

In addition to eliminating cash bail, The Pretrial Fairness Act enacted a comprehensive reform of the system of pretrial proceedings and detention pretrial:

- It conditions pretrial detention on judicial determination that the accused is a flight risk or a danger to other people
- It reformed the process for violations of pretrial release conditions;
- It requires reconsideration of detention and release conditions at every court date;
- It ensures people who are on electronic monitoring pretrial receive time-served credit and guaranteed movement permissions;
- It authorizes law enforcement to release people charged with low-level offenses instead of holding them until they can appear in court;
- It reformed the warrant process;
- It regulates risk assessment tools; and
- It ensures transparency and oversight through data collection, publication, and ongoing advisory groups.

## Developments in Federal Justice

December 2020 Repeal of the 1994 statutory ban on the "Second Chance Pell Grants" to finance the college credit state and Federal prisons –

The repeal of that ban, and repeal of the 1998 law restricting federal financial aid for college students who are convicted of a drug crime, were included in 2020 year-end spending bill.

Policing -in Schools legislation requiring all public schools and districts in Illinois to stop issuing fines for disciplinary violations and to report annually to the state and make public how often they involve police in student matters, with data disaggregated by race, gender, and disability  
see: <https://davisvanguard.org/2025/06/illinois-bans-school-fines/>

Contraband in Prisons – SB2201, mandating the collection and public reporting of prison contraband data, as in where it is found, and who in the facility (person in custody, staff, vendor, etc.) is in possession of or attempting to procure the contraband – part of the effort to improve the safety of everyone inside IDOC but not be unnecessarily punitive to people in custody.

Crime Data – HB1710: Homicide Data Transparency Act, requiring law enforcement agencies across Illinois to routinely publish detailed data on nonfatal shootings, homicides, and investigations.

Work will continue in the fall veto session of the General Assembly to pass the following bills:

Filing Online Witness Slips Online for Committee Hearings in the Illinois General Assembly,

as a proponent of important bills that need our support and

as an opponent of bad bills that we need to oppose.

It takes less than a minute, and it makes a difference:

It is important to emphasize:

- a. the importance in these battles of committee hearings, and the witness slips that we submit in advance of those hearings, because failure of a bill to “make it out of committee” can prevent it from being considered, and
- b. the importance of the challenging work that takes place during the last week of a legislative session, when new bills are floated and amendments adopted in floor votes, often without much notice.

## U.S. Justice Reform

### Electing Reform-Minded Prosecutors

The Accountable Justice Action Fund equips local and national groups with the resources, relationships, and strategic insights to help elect prosecutors committed to justice reform. In the past two years it played a significant role in electing 29 new reform-minded DAs – 18 of whom are people of color – who now oversee a combined population of nearly 38 million people.

Contributing – If you are able to make substantial contributions to funding support for the election and reelection of reform-minded prosecutors in key races in 2021 and 2022, when more than 1,000 DAs will be on the ballot, consider joining the Accountable Justice Action Fund without initial obligation, by simply writing to Chris Maggiano <[chris@cormierco.com](mailto:chris@cormierco.com)>.

Monthly Briefings – Joining AJAF will give you access to a wealth of information and to AJAF's monthly briefings on the political landscape for these races at 4:00 central time on the second Tuesday of each month. The next briefing will take place at 4:00 on Tuesday March 9.
